Age Equality

Professionalism

We are committed to working to the highest standards in everything we do.

We operate with integrity and transparency. We are responsive, accountable and innovative.

Social Justice

We fight for fairness and equality. We advocate for choice and control over our lives and for adequate supports for everyone as we age. We prioritise access to services for those who need it most.

Dignity

Dignity is about respect, compassion, kindness and valuing of each individual. It involves independence and wellbeing as we age.

Participation

We work together. We encourage teamwork, inclusion and meaningful collaboration. We promote people being heard, having voice and influence as we age.

Diversity

We celebrate diversity and value difference. We listen to all voices and challenge discrimination. We recognise the diversity of older people.
