About Getting Started

At Age Action, we envision an inclusive and age-friendly society where older people can lead full, active and healthy lives.

As part of our fight against digital exclusion, Age Action's Getting Started programme offers free, one-to-one, volunteer-led training in digital literacy, supporting older people to get online, or use their smart device with confidence.

For this role, we need volunteers with basic digital skills, and to be available to tutor once a week for two hours over a five weeks period.

Testimonials

“Volunteering with Age Action has been incredibly fulfilling. Through the Getting Started program, I've had the privilege of helping several older people learn to use their phones and tablets. Age Action isn't just about helping others; it's helped me too!

Volunteering has boosted my confidence, taught me patience, and given me a whole new appreciation for the older generation.”

Darina Doyle, Dublin

“I thoroughly enjoy volunteering with Age Action. The Volunteer Program is excellent. The learners I have tutored have been a breath of fresh air, I've learnt so much from our interactions which have been a highlight of my experience.”

John Hayes, Dublin
